**Rock Hill, SC (7/20/17)** – Mattia Gasbarro, Service Inspector from Merlo corporation (Italy) was at the Applied Machinery Sales (AMS) Rock Hill, SC location to train the AMS service team on updates to Merlo’s diagnostic software, and the latest Merlo machine innovations. Applied Machinery Sales commitment to its customers and dealers include continuous training for its service team throughout the year on all Merlo machines and products.

Applied Machinery Sales offers the world class Merlo telehandlers -- in the 5,500 to 26,500lb class with heights ranging from 19 to 96 feet -- to the USA market. Well known for supreme innovation and technology, Merlo has one of the world’s best engineered, and performing, lines of telehandlers providing superior performance and efficiency across all industries. AMS offers Merlo telehandlers for sale or rent, supplies parts and accessories, and has a fully staffed service department.
